- Fried rice and noodles.
- Stir-fried vegetables and meat preparations.
- Marinades for meat, poultry, and vegetables.
- Dipping sauces, dressings, and gravies.
- Seasoning blends, ready meals, and processed food products.

Quality & Food Safety

Danish Agro Farms emphasises suitable ingredient sourcing, hygienic handling, packaging integrity, and verification of product specifications. Depending on the product, quality checks may include colour, flavour, salt content, pH, microbiological quality, and relevant supplier documentation.

Allergen information: Soya sauce commonly contains soybeans and may contain wheat or other allergens, depending on the formulation. Allergen declarations should be confirmed against the actual product specification.

Bulk Supply & Customisation

We support customer requirements for bulk quantities, flavour profiles, packaging formats, and product specifications, subject to availability and agreement. Supplier documentation and Certificates of Analysis (COAs) may be requested where available.

Why Choose Danish Agro Farms?

- Quality-conscious sourcing and supply.
- Flexible packaging and quantity options.

- Product specifications aligned with customer needs.
- Solutions for food manufacturers and foodservice businesses.
- Commitment to reliable supply and long-term business relationships.
