WHOLE BLACK PEPPER

Premium Quality. Bold Aroma. Customised Supply.

Danish Agro Farms supplies whole black pepper for spice manufacturers, food processing industries, seasoning producers, wholesalers, ingredient suppliers, and commercial buyers across Pakistan.

We focus on sourcing quality imported black pepper from established international origins, including Vietnam, Brazil, and Madagascar, subject to availability and lot specifications. Our sourcing approach prioritises product quality, characteristic aroma, pungency, cleanliness, and suitability for the intended application.

We offer flexible bulk purchasing and customised preparation services, including sorting, cleaning, grading, and packaging according to customer requirements.

Product Overview

Whole black pepper (Piper nigrum L.) is one of the world's most widely used spices, valued for its distinctive pungent flavour, rich aroma, and versatility in food preparation and manufacturing.

At Danish Agro Farms, customers can source whole black pepper in bulk and discuss customised preparation according to their required grade, quality parameters, intended use, and packaging preferences.

Key Product Features

- Whole dried black peppercorns sourced from selected international suppliers.
- Imported origin options according to availability.
- Characteristic aroma, pungency, and flavour.
- Sorting and cleaning according to agreed specifications.
- Grading options based on size and other required parameters.
- Suitable for spice grinding, seasoning, and food manufacturing.
- Customised packaging for wholesale and industrial customers.
- Bulk supply options according to order requirements.

International Sourcing Options

We consider established black pepper-producing origins to help customers select products suited to their quality expectations and budget.

- Vietnamese Black Pepper: A major commercial sourcing option, available in different grades according to supplier specifications.
- Brazilian Black Pepper: An established export-origin option for commercial and industrial requirements.
- Madagascar Black Pepper: An alternative sourcing option for customers seeking different origin and grade choices.

Origin availability and product specifications are confirmed for each order. Final selection should be based on sample evaluation, verified documentation, and agreed quality parameters rather than origin alone.

Bulk Purchasing & Customised Preparation

Danish Agro Farms allows customers to discuss bulk procurement and preparation requirements for whole black pepper.

Our service options may include:

- Sorting: Removal of visibly defective or unsuitable peppercorns.
- Cleaning: Removal of foreign matter using appropriate methods.
- Size Grading: Separation according to agreed sieve sizes or customer specifications.
- Quality Assessment: Inspection against agreed product acceptance criteria.
- Preparation: Handling according to the intended application.
- Customised Packaging: Packing according to customer requirements and available formats.

Additional treatments or specialised processing can be discussed where suitable equipment and validated procedures are available.

Quality Inspection & Food Safety

We emphasise raw material assessment and quality verification to support customer requirements and product consistency.

Depending on the agreed specification, checks may include:

- Country-of-origin and supplier documentation.
- Appearance, colour, and characteristic aroma.
- Peppercorn size and uniformity.
- Moisture content.
- Bulk density, where specified.
- Foreign matter and defective peppercorns.
- Mould, insect contamination, and visible defects.

- Microbiological and contaminant testing, where required.
- Packaging integrity and batch identification, where implemented.

Product acceptance criteria should be agreed before order confirmation and aligned with applicable food safety requirements.

Product Specifications

Specification Details

Product Name Whole Black Pepper

Botanical Name Piper nigrum L.

Product Form Whole dried peppercorns

Country of Origin According to available imported lots

Grade According to customer requirements

Size As per agreed grading specification

Moisture As per agreed product specification

Cleaning & Sorting Customised, subject to capability

Packaging Bulk or customised food-grade packaging

Quality Documents Subject to availability and agreed requirements

Actual product parameters and country of origin are confirmed for the selected lot.

Customised Packaging Solutions

We understand that different customers require different packaging formats. Danish Agro Farms can coordinate packaging according to order quantity, handling needs, and customer specifications.

Options may include:

- Bulk bags for wholesalers and industrial buyers.
- Food-grade packaging for spice processors.
- Customer-specific pack weights.

- Smaller commercial packs, subject to availability.
- Private-label or printed packaging, subject to agreement.

Packaging materials, net weight, labelling, and order quantities should be confirmed before production or dispatch.

Product Applications

Whole black pepper is suitable for a wide range of food and ingredient applications, including:

- Black pepper powder manufacturing.
- Garam masala and spice blends.
- Seasonings for meat, poultry, and seafood.
- Sauces, marinades, and savoury products.
- Pickles and food ingredient formulations.
- Restaurants, hotels, and catering businesses.
- Food processing industries.
- Wholesale spice distribution.

Why Choose Danish Agro Farms?

- Sourcing options for imported whole black pepper.
- Customer-focused origin and grade selection.
- Bulk purchasing arrangements.
- Customised sorting, cleaning, and grading options.
- Flexible packaging according to customer needs.
- Quality assessment based on agreed specifications.
- Supply coordination for manufacturers, wholesalers, and commercial buyers.

Our Commitment

At Danish Agro Farms, our goal is to make spice sourcing convenient through suitable raw material selection, flexible preparation, and customer-focused supply arrangements. We aim to support commercial buyers with transparent specifications, responsible handling, and customised packaging solutions.
