White Salt — Product of Danish Agro Farms

Quality-Focused Sourcing | Consistent Quality | Bulk Supply | Customised Packaging

Product Overview

Danish Agro Farms offers white salt for food manufacturers, spice processors, restaurants, foodservice businesses, retailers, wholesalers, and industrial customers. White salt is an essential ingredient used to enhance flavour, season food, and support a wide range of food processing applications.

We focus on sourcing suitable salt grades, verifying product specifications, and providing bulk supply and packaging solutions according to customer requirements.

Key Features

- White salt suitable for food applications.
- Options for different grades and particle sizes, subject to availability.
- Suitable for seasoning, cooking, and food manufacturing.
- Fine, medium, or coarse grades according to customer specifications.
- Bulk supply for commercial and industrial requirements.
- Customised packaging options.
