ANARDANA POWDER

Premium Quality | Tangy Flavour | Bulk Supply | Customised Packaging

Product Overview

Danish Agro Farms offers quality Anardana Powder, carefully sourced and prepared to meet the requirements of spice manufacturers, food processors, wholesalers, distributors, restaurants, hotels, and commercial kitchens.

Anardana Powder, made from dried pomegranate seed material, is valued for its distinctive tangy flavour, fruity aroma, and natural sourness. It is widely used in South Asian cuisine to enhance the flavour of spice blends, chutneys, curries, marinades, snacks, and savoury food products.

We procure Anardana in bulk and can arrange suitable cleaning, grinding, sieving, and customised packaging according to customer requirements, agreed product specifications, and processing availability.

Key Features

- Quality-Focused Sourcing: Raw material selected according to agreed quality requirements.
- Distinctive Tangy Flavour: Adds a fruity, sour taste to food preparations.
- Characteristic Aroma: Enhances the flavour profile of traditional and contemporary recipes.
- Customised Powder Fineness: Grinding and sieving options according to customer specifications.
- Versatile Applications: Suitable for spice blends, chutneys, seasonings, and savoury foods.
- Bulk Procurement: Supply options for commercial and industrial buyers.
- Flexible Packaging: Bulk and customised packaging arrangements according to customer needs.

Sourcing & Procurement

Danish Agro Farms sources Anardana from selected suppliers according to availability, product quality, origin, and customer specifications.

The flavour, colour, acidity, and texture of Anardana can vary depending on the pomegranate variety and drying method. Customers can discuss their requirements for powder fineness, flavour profile, product quality, and intended application before order confirmation.

Country of origin and relevant lot documentation can be discussed where available and applicable.
