

PRODUCT PROFILE

WHITE PEPPER POWDER

WHITE PEPPER POWDER

Premium Quality | Bulk Supply | Customised Packaging

Product Overview

Danish Agro Farms offers premium-quality White Pepper Powder, carefully sourced from selected suppliers to meet the requirements of food manufacturers, spice processors, wholesalers, distributors, restaurants, and commercial kitchens.

White Pepper Powder is valued for its distinctive peppery aroma, characteristic pungency, and smooth flavour. Its light colour makes it particularly suitable for recipes where a refined pepper flavour is desired without the visible dark specks of black pepper.

We procure white pepper in bulk and offer customised product preparation and packaging options according to customer requirements, agreed specifications, and processing availability.

Key Features

- Premium Quality: White pepper sourced according to agreed quality requirements.
- 100% White Pepper: Available as a single-ingredient product, subject to the agreed product specification.
- Distinctive Aroma: Characteristic peppery fragrance and flavour.
- Uniform Powder Fineness: Grinding and sieving specifications can be discussed according to customer needs.
- Bulk Procurement: Suitable for commercial and industrial buyers.
- Customised Packaging: Packaging sizes and formats arranged according to customer requirements.
- B2B Supply Solutions: Designed for food manufacturers, spice brands, wholesalers, and distributors.

Sourcing & Procurement

Danish Agro Farms procures white pepper from selected suppliers and can consider international origins according to availability, quality requirements, and verified lot documentation.

Our sourcing approach focuses on product identity, aroma, appearance, agreed quality parameters, and customer specifications. Country of origin and applicable product documentation can be discussed for individual supply lots.

Product Specifications

Parameter Description

Product Name White Pepper Powder

Brand / Supplier Danish Agro Farms

Product Type Ground white pepper

Botanical Name Piper nigrum L.

Colour Cream to off-white

Aroma Characteristic white pepper aroma

Flavour Distinctive, pungent pepper flavour

Processing & Customisation

To support different food-industry applications, product preparation options may include, subject to the agreed supply arrangement:

- Raw material inspection and selection
- Cleaning and foreign-matter control
- Grinding to the required powder fineness
- Sieving for a consistent particle size
- Quality assessment against agreed specifications

- Customised packaging and labelling

Applications

White Pepper Powder is suitable for a wide range of culinary and industrial applications, including:

- Soups, sauces, and gravies
- Mayonnaise, dressings, and dips
- Seasonings and spice blends
- Meat, poultry, and seafood products
- Processed foods and ready-to-cook products
- Pickles and marinades
- Instant mixes and savoury preparations
- Restaurants, hotels, catering, and commercial kitchens
- Food processing and ingredient manufacturing

Bulk Supply & Customised Packaging

Danish Agro Farms supports business customers seeking white pepper powder for regular production, commercial distribution, or private-label requirements.

Packaging arrangements, order quantities, product specifications, and labelling requirements can be discussed according to the customer's needs and order feasibility.

Why Choose Danish Agro Farms?

- Bulk sourcing and procurement support
- Product specifications tailored to customer requirements
- Flexible powder-fineness options
- Customised packaging arrangements
- Supply solutions for food manufacturers and commercial buyers
- Customer-focused coordination for product quality and consistency

Our Commitment

At Danish Agro Farms, we aim to provide reliable sourcing and supply solutions for quality food ingredients. We work with customers to understand their product specifications, intended applications, packaging preferences, and commercial requirements.
